Vote: Freda –Yes, Doheny –Yes, Buemi – Yes

There being no correspondence, Mr. Freda introduced Leslie Balch, the Director of the Quinnipiack Valley Health District. Ms. Balch introduced herself and explained that the QVHD serves Hamden, North Haven, Bethany and Woodbridge. She went on to explain that the QVHD is in the process of conducting its first formal community health assessment. They are hoping to reach out to and involve a coalition of people to include leaders and community members working together to create a healthy community. She asked for everyone's assistance in the process by completing the QVHD survey. She outlined the process which began with finding the purpose, then collecting and analyzing data, identifying community assets and finally selecting realistic priorities. She reiterated the importance of community participation and requested that everyone complete the online survey and encourage their friends and family to do the same.

Mr. Freda thanked Ms. Balch for her presentation. Ms. Buemi asked Ms. Balch if QVHD had a position on synthetic turf fields. Ms. Balch stated that she would prefer to wait for the full science to come in, she doesn't think we will see changes but it would be unfortunate to spend the time and money now to find it's been a mistake. To date the literature is being reviewed by scientists and they have not found a problem but because it is being reviewed now at the federal level its best to wait for that.

Mr. Freda gave a brief update on his Selectman's overview, he stated that on May 27th, the State passed a bonding package and the Town will receive the \$1.4 million for the 2015-2016 budget. We are still uncertain on the \$1.4 million in the 2016-2017 budget. There will be another bonding meeting in July and a decision will be made at that time. Mr. Freda went on to describe the process at the State. He explained that in order for us to get the funding, the State has to borrow. He also explained that the funding in the past was through what was referred to as MM&E (manufacturing, machinery and equipment) and we used to receive a significant amount of money. Approximately 3 years ago the State discontinued the MM&E and decided to go to a bonding package. It is possible that if the State continues to have problems they may no longer be able to bond for this money. There is a lot of uncertainty. Mr. Freda stated that the \$1.4 million, when received, will allow us to balance the budget or perhaps end up with a small surplus. If that is the case it will go into the rainy day fund. Mr. Freda feels we need to keep that fund balance strong because of the uncertainty with the State.

Mr. Doheny inquired about the ECS funding. Mr. Freda explained it is more than what was figured in the budget. Miss Buemi stated it was approximately \$680,000 more. The Board continued to discuss the ECS funding and the budget. Miss Buemi felt that during the course of the past several months there should have been mention of the \$800,000 of reserve MRSA money. She felt the gloom and doom that was portrayed was unnecessary. Mr. Freda explained that he feels it is gloom and doom on the State level and he has an obligation to present the worst case scenario to our residents. He went on to describe the financial problems at the state level. Mr. Doheny commented that Connecticut has the highest bonding per capita in the country. He also felt that decisions were made with the best information that we had that time. The discussion continued among the selectmen. Miss Buemi asked if because we were given approximately \$700,000 more in ECS money, the Town will be giving less to the BOE, and what will happen to that money. Mr. Freda agreed and stated we can't give them more, because the budget passed, but would have to check into it. The Board discussed the matter further, with Miss Buemi concluding that in light of the increase in ECS funding she feels it's unfortunate that we missed the opportunity to provide our residents with some tax relief.

Miss Buemi commented that when she brought up the Town cemeteries a few months ago she was concerned with the stones that were down on the cemetery on the Green and now that the concerts were starting she was hoping that some progress could be made in caring for the stones. Mr. Freda stated he was not aware of the status of the Cemetery Commission's plan to address that issue. Mr. Freda did comment that he spoke with Carl Veith regarding an update on the Elm Street Cemetery, we took a lot of older trees out that were overgrown on the stones and graves and cleaned up the area and planted some new trees. Miss Buemi stated that she would follow up with the Cemetery Commission regarding the status of the Ancient Cemetery repairs and will report back.

Miss Buemi then brought up her final item for discussion regarding the upcoming anniversary of the September 11th tragedy. She would like to see the Town support having a formal recognition event to honor all of those that were lost that day. She suggested forming a committee with herself and Valerie Goodkin as co-chairs, with the possibility of several other volunteers. Mr. Freda and Mr. Doheny agreed with Miss Buemi. Miss Buemi motioned and Mr. Doheny seconded.
